

# Giving Opportunities

## At the Heart of Health

An accomplished Advanced Heart Failure & Transplant Cardiology Specialist, Medical Acupuncturist, Certified Yoga Instructor and published author, Dr. Radha Gopalan merges his education and experience in both Eastern and Western medicine to look at health and wellness from a unique and powerful perspective.

**Radha Gopalan, MD**  
*Medical Director, Center for Advanced Heart Failure, Mechanical Circulatory Support, and Heart Transplant at Banner – University Medical Center Phoenix*

The 'At the Heart of Health' Fund at the Banner Health Foundation has been established in honor of **Dr. Radha Gopalan** and his vision to self-empower individuals to build well-being in order to combat illness, aid in recovery and experience optimum health every day. Inaugural supporters will help to establish a unique funding resource for physicians, clinicians and health care professionals to expand the use of integrated health and wellness techniques and knowledge. Contributions to the Fund will support patient care and research that applies and advances the integration of Western and Eastern Health and Wellness Practices.

As an academic medical center, Banner-University Medical Center Phoenix serves as a hub of innovation and excellence in health and health care. Many of today's mainstay therapies and treatments were first developed in academic medical centers. Banner – University Medicine's Advanced Heart Failure Center, which Dr. Gopalan helped to establish and lead, is part of that legacy of medical advancement.

With the goal of raising \$2 million, the At the Heart of Health Fund will exclusively support this work and will be managed at the Banner Health Foundation, a tax-exempt nonprofit that advances the mission of Banner Health in Arizona.
